LANGUAGES

Italian

English

PROFILE

I'm a 29-year-old Front-end Web Developer with a strong background in e-commerce and a passion for creating exceptional online experiences.

During this year, I focused on 3D development, delving into WebGL and the Three.js framework.

I also love to optimize processes and in these years I built several tools and shared them with coworkers in order to speed up repetitive and time-consuming tasks.

WORK EXPERIENCE

E-Commerce Front-End Developer

EssilorLuxottica, Milan

04/2021 - Present Day

- Responsible for content development and maintenance for Glasses.com, Contacts Direct, Target Optical and Salmoiraghi & Viganò.
- I work closely with designers and copywriters to create and develop landing pages and AB tests (Monetate).
- I build tools for internal usage, like module libraries, chrome extensions and development environments (gulp + GitHub action, React)
- Responsible for three resources, ensuring the quality delivered and their growth in the company.
- Responsible for providing requirements and QA for roadmap platform projects.
